PROJECTS

Urbanyrics | <https://github.com/obygirl81/project1> | <https://obygirl81.github.io/project1/>

This is a music application that allows users to obtain lyrics of any artist they search for and users can highlight any word on the lyrics to get the definition of that word.

- Completed the front end piece. Wireframe and coding to make the application functional.
- Tools / languages used: HTML, CSS, JavaScript, JQuery, Bootstrap, Musixmatch API and Urban dictionary API.

CustomizableResidenceUpkeepDatabase|project2|<https://github.com/whitingba/Project-two><https://crud-masters.herokuapp.com/>

This is a full-stack application that allows users to manage everyday home tasks from anywhere and on any device. Users can create tasks, assign tasks to users, modify tasks, modify users, delete users, view all tasks, view all users, and view or modify future tasks.

- Completed the back- end piece; coding the api routes and models to make the application functional.
- Tools / languages used: HTML, CSS (w/bootstrap framework), JavaScript, JQuery, Express.js, MySQL2, Sequelize, Particle.js, and Heroku.

EXPERIENCE

Web Content Manager
University of Colorado

2018 – Present
Denver, CO

Facilitating website transitions from old legacy Sharepoint Content Management System to Sitefinity Content Management System

Key Accomplishments:

- Manage over 175 websites and improve end-user content management
- Work with the development team to test features/functionality and deploy code to production
- Participate in Sprint planning and Design reviews
- Increase functionality such as blogs, calendars, forms, analytics and multi-language support
- Edit, publish monthly news updates and features/functionality releases
